### **ST. FAUSTINA SCHOOL PROJECT REPORT**

We are very happy for the 3,000 Euro grant we received towards the construction of the second school block at St. Faustina Primary School. We write to give a report and the current status of the project.

The following pictures show the current status of St. Faustina School Block. The construction of the main structure is now complete and we have bought the iron sheets and ridges with the help that we got from the Irish friends. What remains now is the actual roofing, plastering and flooring, pointing and painting--- finishing works. The details of the expenditure report are given below and the hard copy will be given to Ungweru tomorrow.
